Analysis report [REDACTED] **NADH 20mg sublingual**

Report number: 37772002-1
Sample number: L-3777/20
Sent to us by: see above
Arrival of sample: 2020/07/21 10:00 am
Sample temperature: 20 °C
Number of samples: 1
Start of analysis: 2020/12/22
Scope of analysis: to your order with chemical results
End of analysis: 2020/12/23

1. Sample specification

Sample description: NADH 20mg sublingual
Nahrungsergänzungsmittel
60 Tabletten
Nettofüllmenge: 48g
Hergestellt in Deutschland
[REDACTED]
[REDACTED]

Best before: 06.2023

Lot-no.: [REDACTED]

Package: Plastic container with reclosable plastic lid and colorful
printed adhesive label

to 37772002-1:

2. Chemical results:

(Storage from 07/21/2020 to 12/22/2020 at room temperature)

NADH (mg/tablet): (Method: HPLC-UV; IK2009)	< 2,10 *	
--	----------	---

* value is equal to the limit of quantification

**NADH content per tablet according to label: 20 mg
NADH content per tablet according to examination: below
detection limit**
